We have been here before
We have been here before
And we can see the warnings they want us to ignore
We have been here before

We've heard that sound before
We've heard that sound before
The rattle of the sabres. The sharp'ning of swords
We've heard that sound before

We wrote this check before
We wrote this check before
Rich man plays with weapons paid for by the poor
We wrote this check before

We've sung this song before
We've sung this song before
We will not stop singin'. We'll strike every chord
We've sung this song before

We have been here before
We have been here before
We can see the warnings they want us to ignore
We have been here before

We have been here before (2x)
